13 Seer Air Conditioner/Heat Pump

R22 System Component

Save Energy, Save Money ***

Our air conditioners and heat pumps have a 13 SEER rating* to provide exceptional cooling and heating performance. They are designed to help you use less energy than units installed as recently as five years ago.

Built To Last

Naltex® Hail-Guard® screen helps protect the coil from damage, while the compressor is designed for reliable and efficient money-saving performance. The corrosion-resistant cabinet is built from strong, heavy-gauge prepainted steel and has drain holes to quickly remove standing water from the base pan before corrosion can start.

Air Conditioner Unit Dimensions

Model Number	Width (Inches)	Depth (Inches)	Height (Inches)
13ACD018	24-1/4	24-1/4	25-1/4
13ACD024	24-1/4	24-1/4	25-1/4
13ACD030	24-1/4	24-1/4	33-1/4
13ACD036	24-1/4	24-1/4	33-1/4
13ACD042	28-1/4	28-1/4	29-1/4
13ACD048	28-1/4	28-1/4	37-1/4
13ACD048	28-1/4	28-1/4	33-1/4

Heat Pump Unit Dimensions

Model Number	Width (Inches)	Depth (Inches)	Height (Inches)
13HPD018	26-3/4	26-1/4	33-1/2
13HPD024	26-3/4	26-1/4	33-1/2
13HPD030	26-3/4	26-1/4	29-1/2
13HPD036	26-3/4	26-1/4	33-1/2
13HPD042	30-3/4	30-1/4	33-1/2
13HPD048	30-3/4	30-1/4	37-1/2
13HPD048	30-3/4	34-1/4	37-1/2

Design Features

- Ready for use with R22 refrigerant †
- 1½–5 tons nominal capacity
- Quiet, durable scroll compressor on all heat pump models is safeguarded by internal pressure relief valves and inherent thermal protection
- Naltex® Hail-Guard® screen helps protect the coil from damage
- Permanently lubricated condenser fan motor requires no annual maintenance
- 5-year limited warranty on compressor and 5-year limited warranty on parts**
- Liquid line filter factory installed on Heat Pump models only

† To be used for R22 System repair, not for new installations.

* With specified matched system

** See your local independent dealer for complete details regarding warranty coverage.

*** Actual cost savings may vary depending on personal lifestyle, system settings, equipment maintenance, local climate, actual construction, installation of equipment and duct system, hours of operation and local utility rates.
